superior court has been a busy place this month, for in addition to the usual routine and preparations for the coming busy year there have been forty three aliens there for their first papers, the making out of which requires no small amount of time.

That there will be plenty of business for the coart this fall is evidenced by the number of new cases already returned for the first Tuesday in September. Thus far there are twenty three new cases, twelve of which were returned on Wadnesday. The September cases, with the exception of those to which reference has been made, are as follows:

For the sum of \$2,000 Frederick H. Gavitt of New London is sued by George J. NUMBER OF WEEKS

BEFORE MILL CAN START. Will Not Be Ready as Was Hopen on First of September, but Thames River Specialties Company is Making Good Progress.

With a few days more than one week to depend upon, it is a little doubtful if the Thames River Specialties company will be in position to start up the big paper making plant exactly on September 1, as intended. However, the mill will be in form for a commencement of operations very soon after that date. There are sev-

work with the low tides, day and hight and Sundays.

Another branch of the work unfin-ished is the wharf and railway for the handling of coal. This is being built' by the T. A. Scott company of New London, Most of the piles for the wharf extension have been put in place but it will take several days to finish the contract. When completed, this wharf will form an extension of the old wharf and with it will afford am-

ple facilities for shipping and receiv-ing material.

The concrete work is nearing completion, and only the ground floor of the main room remains to be done. The heavy piping required to make connections between beaters vats and machines is well advanced and will be completed in a few days. The new offices in the south room are completed as to carpenter work and require only to be furnished.
